

Mitel MiVoice 8528 Telephone

Customized functionality for maximized efficiency

Key Features

- Scalable functionality
- Hands-free operation (half duplex)
- 16 programmable multi-function keys with LED indicators
- Expansion support for programmable key modules
- Store up to ten (10) personal speed dial numbers

The Mitel® MiVoice 8528 Telephone is designed to provide users with the functionality they need to maximize their efficiency in a small or medium business.

Together with its two-line by 16-character display, built-in speaker and microphone allowing for hands-free operation and its 16 programmable keys, users are provided with quick access to the information they need and the ability to customize the functionality of this digital phone in order to maximize their efficiency and ease-of-use.

In addition, this ergonomically designed phone features a large message waiting lamp that is visible from all angles, as well as 10 fixed function keys that allow one-touch operation for the most commonly used telephony functions or settings.

The MiVoice 8528 Telephone is designed to operate behind the MiVoice Office unified communications platform (formerly the Mitel 5000 Communications Platform (CP)).

Unified Communications Support

When used with Mitel Unified Communicator® (UC) Express or Mitel MiCollab Client (formerly Mitel Unified Communicator® (UC) Advanced) applications, the MiVoice 8528 Telephone becomes a powerful communications tool that helps customers streamline communications between people and organizations. This leads to improved productivity, enhanced customer service, reduced costs, and ultimately improved business process integration.

Scalable Functionality

The MiVoice 8528 Telephone integrates with the Mitel Programmable Key Module (PKM) 12 and Mitel Programmable Key Module (PKM) 48 for easy addition of quick access function keys.
